## **Governor Locke Sets Out Strategy for Providing Farmworker Housing**

The issue of how to meet farmworker housing needs has been long debated. This year, the Governor has proposed a multifaceted effort to address the continuing lack of housing for farmworkers and their families. Hearings have been held in the Senate on bills requested by the Governor. In the House, the Economic Development, Housing and Trade Committee has held an informational work session. As it has in the past, the Department of Health is playing an important role in addressing the issue.

The Governor's strategy for farmworker housing includes the following elements:

**Permanent Seasonal Worker Housing:** a ten-year capital plan primarily for construction of permanent low income housing.

**Migrant Housing:** a ten-year capital plan which will build one migrant based project a year, with growers assuming the operational costs. The first project is set to open in Mattawa this spring.

**On-Farm Housing:** legislation to consolidate enforcement and technical assistance for on-farm housing. Regulations and enforcement now lie in three different state agencies. Legislation will consolidate the program into the Department of Health. Enforcement staff will more than double in the Department. L&I will triple the pesticide inspections and increase safety and health inspections.

\$8 million is being requested as part of the Capital budget to begin construction of permanent, low-income housing for seasonal farmworkers as well as community-based housing for migrant workers. SB 5594 and its companion bill, HB 1497, establish a one-stop clearing house where growers, local governments and nonprofit organizations preparing to expand farmworker housing can get the information and technical assistance they need. SB 5599 directs the Department of Health and Labor & Industries to develop joint rules for the licensing, operation and inspection of temporary worker housing and the enforcement of the rules. It designates the Department of Health as the lead agency for on-farm housing. §

# Department Tracks Student Health Legislation

The Department has been closely following issues relating to student health this session. The issue of healthy students in our schools is the subject of one of the Department's Strategic Initiatives for Public Health, adopted in 1998. The Student Health Initiative seeks to provide safe and effective student health services. Department goals include addressing the lack of trained and available personnel to meet health needs in the school setting; improving data available to described student health needs; and increased funding for school health needs.

One bill the Department has been following is SB 5590. Under current state law, schools can only honor requests for oral medications if they come from a licensed physician or dentist. School personnel administer oral medications to students when they get such a request from parents, accompanied by instructions, with proper identification of the medication to be administered and a means for safekeeping the medication. There are an increasing number of school age children who receive prescriptions from physician's assistants and advanced registered nurse practitioners. Current law does not allow for prescriptions written by these practitioners to be accepted in schools for the purposes of administering oral medications to students.

SB 5590 recognizes that there are person other than physicians and dentists who are authorized to prescribe drugs in this State. The benefits seem clear — parents will appreciate the simplification of the process. It will make it easier for a parent to obtain the proper written request that will authorized the school to appropriately administer drugs to children. Prescribers not now mentioned in this law will appreciate that their patients may receive needed drugs without delay. School districts will be able to accept drugs and instructions from additional practitioners. §

# Mandated Benefit Status Report

Several mandated benefits bills have been heard so far this session. The Department had conducted a sunrise review of these proposals in either 1997 or 1998. Here's a quick status report:

SB 5398 — Eating Disorders — Requires state regulated health plans to cover eating disorders at the same level they cover other "major illnesses." The hearing began on February 8; will continue on February 17.

SB 5425 — Mental Health Parity — Requires state regulated health plans to cover mental health treatment and services at the same level they cover physical illnesses. the hearing has taken place; no executive action taken.

SB 5512/HB 1590 — Contraceptive Services — Requires state regulated health plans to cover prescription drugs, devices and outpatient services for contraceptive and family planning services. Senate hearing held; no executive action taken.

HB 1889 — Dental Anesthesia — Requires state regulated health plans to cover dental anesthesia for certain patients in hospital settings; requires dental plans to cover anesthesia for certain patients in dental settings. No hearing scheduled.

SB 5349 — Cranial Hair Prostheses — Requires state regulated health plans to cover the provision of cranial hair prostheses at the same rate they cover other prosthetic devices. Hearing held on February 10.

SB 5112 — Mastectomy services — Would require state regulated health plans to allow only the attending physician and patient to decide inpatient length of stay for mastectomy services. Hearing held; on second reading.

Copies of the department's sunrise review reports are available upon request. Some are posted on the agency's web site <http://doh.wa.gov/publications>. Please call Lance Martin at 360-236-4622 for more information.

## New Department of Health Web Site Promotes Statewide Health Education Networking

*H.E.R.E. (Health Education Resource Exchange) in Washington* is a project of the Department of Health's, Office of Health Promotion and was developed in response to a statewide needs assessment of state and local public health staff.

*H.E.R.E. in Washington* is an on-line clearinghouse of people, projects, tools, and resources in Washington designed for population-based health promotion and health education activities in a variety of settings.

*H.E.R.E. in Washington* provides a means for networking and sharing community projects, program successes, educational materials, tools, books, professional train-

ing opportunities, and important events. The information available on this site is provided by public health staff from across the state and reflects programs that are currently being implemented in Washington communities. The clearinghouse also has links to other health databases and useful Internet resources.

We strongly encourage you to be a part of this information exchange. If you would like to visit or contribute to the Health Education Resource Exchange, please surf on over to <http://www.hereinwa.org>. You can email your questions or contributions to Don Martin, project manager, from the website. §

### Data and Confidentiality

#### **HB 1262: Year 2000 Computer Problem**

Allows the Insurance Commissioner to provide technical assistance to insurance companies and health carriers in addressing the Year 2000 (Y2K) computer problem. Requires the Commissioner to include an examination of whether the insurer or carrier has a Y2K computer problem and the insurers' or carriers' efforts to address any problems in this area. Directs the Commissioner to report to the Governor and chairs of the legislative committees dealing with insurance issues by July 1, 1999, and October 1, 1999, regarding the potential Y2K computer problem faced by the state's insurers and carriers. **House Financial Institutions & Insurance.**

#### **HB 1372/SB 5240: Birth Defects Surveillance**

Repeals the Handicapped Children's Registry statute. **House Health Care/Senate 2<sup>nd</sup> Reading.**

#### **HB 1603: Medical Research Records**

Establishes procedures to regulate the disclosure of medical and health research records. **House State Government.**

#### **HB 1835: HIV/Sexually Transmitted Diseases**

Strengthens provisions relating to the confidentiality of information relating to sexually transmitted diseases and HIV. **House Health Care.**

#### **HB 1881: Social Security Number Use**

Protects the privacy of the citizens of Washington by restricting the use of social security account numbers by companies, government agencies, and organizations that use individual's social security account numbers for numerical identifiers, account numbers, and other record-keeping purposes. **House Judiciary.**

#### **SB 5201: Vital Statistic Record Fees**

The fees that the Department of Health and local registrars charge for copies of records and for searches of records are raised by \$2. Of that amount, the local registrar must submit to the State Treasurer for each copy or search \$1. The additional \$1 submitted to the State Treasurer must then be transferred to the Department of Health. These provisions relating to the establish-

ment of fees expire on July 1, 2001. Authorizes the State Board of Health to set fees for copying and searching services after July 1, 2001, according to its rulemaking authority. **Senate Health & Long Term Care.**

#### **SB 5482: Medical Research Records**

Makes vital statistics records available for inspection, copying, and use by a health research organization in connection with a medical or health research project that an institutional review board has approved. **Senate Health & Long-Term Care.**

#### **SB 5767: Year 2000 Computer Conversions**

Requires businesses and agencies to exercise reasonable care to prepare their electronic computing devices to continue normal operation after the year 2000 (Y2K). Requires citizens and clients of agencies to receive statutorily mandated services, entitlements, and compensation delivered through electronic computing devices without interruption through and after Y2K. Vendors and contractors providing goods and services to agencies must continue to receive payment without interruption through and after Y2K. States that affected citizens, clients, vendors, and contractors have recourse to existing administrative or contractual remedies to obtain redress, but not punitive damages as a result of a Y2K related failure. **Senate Judiciary.**

#### **SB 5793: Sexually Transmitted Diseases**

Increases the protection of confidential information related to sexually transmitted diseases and HIV. **Senate Health & Long-Term Care.** *Public Hearing, 2-15-99, 1:30 p.m., Senate Hearing Room 4.*

### Disease Prevention and Control

#### **HB 1080: Infectious Disease Testing**

Provides infectious disease testing at no cost to good Samaritans for infectious diseases after rendering emergency assistance that has brought them into contact with a bodily fluid. **House Health Care, Do Pass.**

#### **HB 1371/SSB 5199: Tuberculosis Control**

Revises provisions relating to reporting, treatment, and payment for treatment of tuberculosis. Repeals obsolete sections of tuberculosis statutes. **House Health Care/Senate Eligible 2<sup>nd</sup> Reading.**

**HB 1672: Hepatitis C Management**

Requires the Department of Corrections to submit to the legislature, by December 15, 1999, a report on how the department manages hepatitis C in the inmate population, and to make recommendations on how to improve that management. **House Criminal Justice & Corrections.** *Public Hearing, 2-16-99, 10:00 a.m., House Hearing Room E.*

**HB 1800: Needle Stick Protections**

Requires each employer to conduct product evaluations of needleless systems and sharps. Product evaluations should include devices used in the employer's facility where there is a sharps injury risk. **House Health Care.** *Public Hearing, 2-12-99, 1:30 p.m., House Hearing Room C.*

**HB 1890 Allergenic Latex Use**

Prohibits, effective January 1, 2000, the use of powder latex products in health care facilities. Health care facilities must establish, upon the recommendations of DOH, written policies on methods to prevent latex allergic reactions through the use of low-protein latex products. **House Health Care.** *Public Hearing, 2-16-99, 1:30 p.m., House Hearing Room C.*

**SB 5138: Body Art Facilities**

Directs the State Board of Health to adopt rules for permitting local health jurisdictions to regulate body art operators and body art facilities. **Senate Health & Long Term Care.**

**SB 5172: HIV Testing of Offenders**

Requires local health jurisdictions to conduct or cause to be conducted pretest counseling, HIV testing, and posttest counseling of all persons who are offenders or arrested or detained persons and who have subjected a law enforcement officer, fire fighter, health care facility staff person, Department of Corrections staff person, jail staff person, or other category of employee, as determined by the State Board of Health, to substantial exposure to their bodily fluids. Persons tested under this provision shall also be tested for Hepatitis B. **Senate Human Services & Corrections.**

## Environmental Health

**HB 1054/SB 5125: Pesticide Registration Commission**

Appropriations made to Washington State University

may now expressly be used for evaluations, studies, or investigations approved by the Commission for such Integrated Pest Management (IPM) and pesticide resistance management programs. Added to the duties of the Commission is the requirement that it encourage agricultural organizations to provide assistance for IPM and pesticide resistance management programs for minor crops and minor uses that would benefit the organizations. An official action may now be taken by the Commission by a majority vote of its quorum, rather than a majority vote of the voting members. **House Passed 3rd/Senate Eligible 2nd Reading.**

**HB 1163/SB 5106: Illegal Drug Manufacture**

Finds that the contamination of properties used for illegal drug manufacturing poses a threat to public health. The toxic chemicals left behind by the illegal drug manufacturing must be cleaned up to prevent harm to subsequent occupants of the properties. Declares an intent that properties are decontaminated in a manner that is efficient, prompt, and that makes them safe to reoccupy. **House Agriculture & Ecology/Senate Environmental Quality and Water.** *Public Hearing, 2-18-99, 10:00 a.m., Senate Hearing Room 2.*

**HB 1164/SB 5105: Public Water System Definition**

Revises the definition of public water system to include systems providing water through constructed conveyances, in conformance with federal law. **House 2<sup>nd</sup> Reading/Senate Environmental Quality & Water Resources.**

**HB 1182: Coordinated Water Systems**

Requires a coordinated plan for water systems. **House Agriculture & Ecology.** *Public Hearing, 2-18-99, 8:00 a.m., House Hearing Room A.*

**HB 1264/SB 5361: Water-Sewer Districts**

Makes technical corrections regarding combining water-sewer districts. **House Local Government/Senate State & Local Government.**

**HB 1310: PUD Authority**

Revises provisions relating to the authority of a public utility district to furnish water to persons outside of the district and the county where the district is located, and to establish local utility districts for water or sewer facilities outside of a district and the county where it is located. **House Local Government.** *Public Hearing, 2-15-99, 1:30 p.m., House Hearing Room D.*

**HB 1314/SB 5289: Water Resource Management.**

Finds that numerous fish stocks of the state are being listed or are proposed to be listed as threatened or endangered under the federal Endangered Species Act and that various state laws relating to water resources, land use, and fish protection and restoration must be strengthened to minimize the potential for federal preemption of state authority and autonomy regarding the management of the state's fisheries and water resources. Provide funds to the Department of Ecology for grants and loans to public bodies engaged in irrigation water supply for the purpose of improved drought preparedness. Requires each public water system with fifteen or more service connections to implement a water conservation program promotion targeted at system customers and implement other cost-effective water conservation measures identified in approved water conservation plans. Requires public water systems with one thousand or more service connections to implement a leak detection and repair program, and repair leaks if the system's unaccounted for water is ten percent or more of total system water usage; conduct water audits to identify internal water distribution and associated opportunities for improved water use efficiency; and utilize commodity-based water rates and not declining block rate structures. Requires public water systems with fifteen or more service connections to collect monthly water use data from all water sources used to serve the system. Requires the Department of Ecology in consultation with the DOH to adopt rules establishing water use efficiency performance standards for various water uses by December 31, 2000. Requires the Department of Ecology, in consultation with the DOH and water purveyors, to adopt rules by December 31, 2000, establishing criteria to determine when the use of reclaimed water is feasible to replace potable water supplied for nonpotable water use. Local governments may adopt ordinances requiring the use of reclaimed water for nonpotable uses when determined feasible. Directs the Department of Ecology to convene a group consisting of representatives from major stakeholder groups concerned with water resources management as well as scientists recognized for their expertise in the fields of hydrology, hydrogeology, fish biology, stream ecology, and stream restoration to review, assess, and recommend methods for mitigating the effects caused by proposed ground water withdrawals. The Department of Ecology shall

adopt rules to implement the findings of the group and shall report on the group's progress, findings, and any recommendations for possible legislative action to the legislature by December 31, 1999. Makes appropriations to carry out the purposes of the act. **House Agriculture & Ecology/Senate Environmental Quality & Water.** *Executive Session, 2-16-99, 10:30 a.m., Senate Conference Rooms A, B & C.*

**HB 1432: Dairy Commission**

Authorizes the Dairy Commission to participate in federal and state regulatory activities and expend funds when such activities affect the production, manufacture, distribution, sale, or use of dairy products, and educate the dairy industry on such matters. **House Agriculture & Ecology.**

**HB 1468: Water Supply Adequacy**

Directs the Department of Ecology to provide information regarding the adequacy of water supplies to meet the demands of projected growth. **House Agriculture & Ecology**

**HB 1498: Growth Management Act**

Revises the growth management act to place equal emphasis on the rights of property owners. **House Local Government.**

**HB 1502: Instream Water Rights**

Declares a water right for instream use may be held by the state through the establishment of a reservation or minimum flow or level as specified in state law, or may be held by the state as a trust water right. A water right for instream use may also be established, changed, transferred, or amended in the manner prescribed for a water right for any other use and may be held as an appropriative right by any person or entity whatsoever. **House Agriculture & Ecology.**

**HB 1517: Municipal Water Supply**

Declares "municipal water supply purposes" means the use of water to satisfy the needs of a city, a town, a public utility district, a water-sewer district, or a Group A public water system. **House Agriculture & Ecology.** *Executive Session, 2-18-99, 8:00 a.m., House Hearing Room A.*

**HB 1527/SB 5564: Water-Sewer District. Assumption**

Revises the law governing assumptions of water and sewer districts by cities. **House Local Government/**

## Senate State & Local Government.

### **HB 1563: Safe Foods Initiative**

Establishes the Safe Foods Initiative at Washington State University to promote safe food products for domestic and global markets; to protect food crops from devastating pests; and to create high-quality, economically viable, safe food production systems. **House Agriculture & Ecology.** *Public Hearing, 2-17-99, 1:30 p.m., House Hearing Room C.*

### **HB 1612/SB 5354: Geoduck Diver Licenses**

Prohibits the Director of Fish & Wildlife from issuing new geoduck diver licenses unless fewer than fifty persons are eligible for renewal. **House Natural Resources/Senate Natural Resources, Parks & Recreation.**

### **HB 1642: Surface Water Permits & Rights**

Allows water permit holders to change the point of water diversion for an undeveloped portion of an existing water right permit from an existing authorized diversion point, downstream to an existing intake structure, if there is no change in ownership of the permit or the original purpose and place of use of the water. **House Agriculture & Ecology.**

### **HB 1802: Salmon Run Recovery Program**

Creates a pilot program for salmon recovery in Whatcom County. **House Natural Resources.**

### **HB 1813: Water Rights Applications**

Authorizes DOE to give processing priority for transfers, changes, and amendments to existing water rights over applications for new water rights. **House Agriculture & Ecology.**

### **HB 1839: Water Rights/Instream Use**

Provides that a water right for instream use may be held by the state through the establishment of a reservation or minimum flow or level or may be held by the state as a trust water right. A water right for instream use may also be established through the approval of a change, transfer, or amendment of an existing water right in the manner prescribed for a water right for any other use. A water right for an instream use established through such a change, transfer, or amendment may be held as an appropriative right by any person or entity. **House Agriculture & Ecology.** *Public Hearing, 2-19-99, 1:30 p.m., House Hearing Room A.*

### **HB 1876: County Small Mines**

Limits the authority of counties with small populations for regulating certain aspects of mining. **House Natural Resources.**

### **HB 1900: Water Right Transfer/Change**

Declares that processing applications for changes, transfers, and amendments of existing water rights shall not be delayed or postponed for the purpose of processing applications for new water right permits. **House Agriculture & Ecology.**

### **HB 1919/SB 5682: Mobile Home Park Septic System**

Authorizes local governments to require that septic systems be removed from mobile home parks in areas designated as having a critical recharging effect for an aquifer that is the primary drinking water source for a city of over 150,000 population. **House Local Government/Senate Environmental Quality & Water Resources.**

### **SB 5045: Mobile Home Park Septic System**

Authorizes local governments to require that septic systems be removed in areas designated as critical for aquifer recharging. **Senate Environmental Quality & Water Resources.**

### **SB 5059: Radioactive Waste Transport**

Authorizes counties to assess impact fees to cover the costs associated with the transport of radioactive waste over their roadways. **Senate Environmental Quality & Water Resources.**

### **SB 5067: Uranium and Thorium Mills**

Prohibits DOH from approving a license or the renewal of a license for a uranium or thorium mine, mill, or tailing facility, if the license is based on a reclamation, closure, or decommissioning that involves the receipt, storage, permanent impoundment, or disposal of radioactive materials, including uranium or thorium mill tailings and byproduct material, at a licensed site or proposed licensed; except where the radioactive materials proposed for receipt, storage, permanent impoundment, or disposal is produced at a mine associated with, and under the same operator or ownership as, the licensed site or proposed licensed site. **Senate Environmental Quality & Water Resources.**

### **SB 5072: Uranium and Thorium Mills**

No state agency may issue a permit for the transportation of low-level radioactive mill tailings which is classified as 11e(2) waste under the Atomic Energy Act. DOH may not approve the license or re-licensure for the reclamation, closure or decommissioning of a uranium mill, thorium mill, or tailing facility if the reclamation uses 11e(2) radioactive materials not produced at the site. **Senate Environmental Quality & Water Resources.**

### **SB 5080: Biomedical Waste Operations**

Requires that each biomedical waste treatment (deactivation) facility operating under a solid waste handling permit shall develop a hazard analysis and critical control point (HACCP) plan. The plan scope must cover worker health and safety, and health risks to the community surrounding the treatment facility. The plan must be submitted to the local health jurisdiction for review. In reviewing the plan, the local health jurisdiction must consult with the DOH, Ecology, and L&I. The local health jurisdiction must complete its review within 120 days of submission, and shall submit any recommendations for changes to the plant operator. local health jurisdictions must monitor the operation of the facilities to assure that they are operated according to the plan. If public health or worker safety issue arise at a plant, or if a significant change occurs such as a change in the source of waste, any of the involved public agencies may propose a revision to the plan. local health jurisdictions, with assistance from the DOH, must establish verification procedures as a condition of the permit, or if an incident occurs that threatens public or worker health. Initial plans must be completed within two years of the bill's effective date. The plant operator must update the plan every two years following. Treatment facilities established after adoption of the bill must develop a plan before commencing operations. **Senate Environmental Quality & Water Resources.** *Public Hearing, 2-16-99, 1:30 p.m., Senate Hearing Room 2.*

### **SB 5081: Biomedical Waste Treatment**

Requires DOH, in consultation with the Department of Ecology and local health jurisdictions, to evaluate the environmental and public health impacts of biomedical waste treatment technologies, and that the evaluation be consistent with that protocol established by the State and Territorial Association on Alternative Treatment Technologies (STAATT). All direct costs associated with the evaluation are borne by the applicant of a technology. Such costs must be paid either to the DOH,

or to a state or local entity designated by the DOH. **Senate Environmental Quality & Water Resources.** *Public Hearing, 2-16-99, 1:30 p.m., Senate Hearing Room 2.*

### **SB 5082: Biomedical Waste Inactivation**

Declares, beginning January 1, 2001, cultures and stocks that are infectious to humans generated at microbiological laboratories shall be treated to accomplish microbial inactivation before being transported from the facility. Requires the Department to adopt, by rule, a surcharge on the license fee in this section for medical test sites licensed in microbiology to generate twenty thousand dollars per biennium to administer this act. **Senate Environmental Quality & Water Resources.** *Public Hearing, 2-16-99, 1:30 p.m., Senate Hearing Room 2.*

### **SB 5083: Biomedical Waste Disposal**

Provides \$100,000 to the University of Washington School of Public Affairs to conduct a study in consultation with DOH to evaluate the relative risks posed by different methods of treatment and disposal of biomedical waste. **Senate Environmental Quality & Water Resources.** *Public Hearing, 2-16-99, 1:30 p.m., Senate Hearing Room 2.*

### **SB 5091: Water Rights Regulators**

Establishes a more effective method of water resource management in the state of Washington. Declares in order to meet this intent, it is necessary to create a system of locally based water rights regulators, focus on water conservation, actively work to ensure proper water allocation procedures are followed, and rely on a market driven water transfer process. **Senate Environmental Quality & Water Resources.**

### **SB 5107: Puget Sound Action Team**

Revises the membership of the Puget Sound action team and the interagency advisory council. **Senate Environmental Quality & Water Resources.**

### **SB 5190: Lakes Management**

Creates lake management service areas to provide lake management services and facilities. Creates an aquatic plant management permit program, to coordinate, timely and predictable permit processes that will assist property owners and local governments in controlling aquatic plants. Directs the Department of Ecology to establish and administer a demonstration project for the control of Eurasian water milfoil, for the purpose

of evaluating the effectiveness of the pesticide 2,4-D at eradicating early infestations. **Senate Environmental Quality & Water Resources.**

### **SB 5228: Noise Health Effects Study**

Authorizes a comprehensive review of current federal research studies on the health effects of noise and a review of current state and stream restoration to review, assess, and recommend methods for mitigating the effects caused by proposed ground water withdrawals. **Senate Ways & Means.**

### **SB 5433: Biomedical Waste Disposal**

Requires the inclusion of a program for the safe handling, transport, and disposal of biomedical waste. The program shall specify how biomedical waste will be segregated from other solid waste. **Senate Environmental Quality & Water Resources.**

### **SB 5435: Environment 21 Commission**

Creates the Washington Environment 21 Commission. Directs the Commission to develop recommendations for legislative and executive consideration and implementation that will increase the reliance upon environmental strategies that emphasize market incentives, pollution prevention, public education, and technical assistance; reduce inefficiency by all levels of government; achieve greater consistency among the goals, standards, and objectives of existing environmental quality statutes; build upon the recommendations of the land use study commission; ensure that the relative priority of environmental threats to the state is a central consideration in the development of state operating and capital budgets for environmental programs; achieve a uniform, consistent, and high-quality periodic assessment of the state's environmental quality, improve monitoring and data management relating to environmental quality, and establish a system to assess state-wide environmental trends over time to assist in developing policies and budgets; and reduce or eliminate environmental programs or activities that do not provide a substantial contribution to maintaining the state's environmental quality. **Senate Environmental Quality & Water Resources.**

### **SB 5478: Stream and Lake Levels**

Directs the Department of Ecology to incorporate the best available science in establishing flows or levels. In developing methodologies for establishing flows or

levels adequate to support the recovery of salmon and trout populations, the DOE must consult with the Department of Fish and Wildlife and the science panel. DOE shall periodically consult with the Department of Fish and Wildlife and the science panel to ensure an ongoing application of best available science in its exercise of authority under this act. Requires that for the period beginning July 1, 1999, through June 30, 2003, DOE must place the highest priority in exercising the authority under this act upon the adoption of flows or levels for the recovery of depressed salmon and trout populations. **Senate Environmental Quality & Water Resources.**

### **SB 5479: Water Resource Transfers**

Enacts a comprehensive set of laws to govern voluntary transfers of and changes in water rights, including authorizing additional types of transfers of and changes in water rights in which the water code is silent or does not allow before the effective date of this section, providing more opportunity for compensatory and consensual mechanisms in which third-party interests may be addressed and transfers allowed that would otherwise be prevented by the water code's no impairment rule improving the processing of applications for transfers and providing for expedited decisions upon short-term transfers, improving the collection, management, and accessibility of information relating to water rights transfers, and providing assistance locally and at the state level to encourage water transfer transactions and the development of markets for water transfers generally. **Senate Environmental Quality & Water Resources.**

### **SB 5500: SEPA Exemptions**

Declares decisions pertaining to the following activities are exempt that State Environmental Protection Act: construction of or location of any residential structures of ten or fewer dwelling units; construction of any office, school, commercial, recreational, service, or storage building with eight thousand or fewer square feet of gross floor area, and with associated parking for forty or fewer automobiles; construction of a parking lot designed for forty or fewer automobiles; division of land into nine or fewer lots or parcels; and any landfill or excavation of five hundred cubic yards throughout the total lifetime of the fill or excavation. **Senate Environmental Quality & Water Resources.**

### **SB 5507: Water Rights Processing**

Revises provisions relating to the processing of water rights. **Senate Environmental Quality & Water Resources.**

**SB 5543: Water-Sewer District. Assumption**

Revises provisions relating to the assumption of water-sewer districts by cities or towns. **Senate State & Local Government.**

**SB 5546: Water Resources**

Authorizes the Department of Ecology to establish and maintain a stream keeper volunteer program.
